

# Dependent Eligibility Audits

**Smarter compliance. Real savings. Built for employers.**

BAS' MyEnroll360 Dependent Audit Services help organizations verify that only eligible individuals remain on benefit plan—reducing costs, supporting compliance, and simplifying administration. With our secure, cloud-based platform and expert support team, dependent audits become easy to launch, manage, and complete.

## Simple Compliance

Stay compliant with plan rules and federal guidelines through a process that's clear, secure, and easy to manage.

## Cost Control

Remove ineligible dependents from coverage and reduce unnecessary benefit expenses—even before open enrollment.

## Employee-Friendly

Employees can upload, fax, or mail documentation. A streamlined process with reminders, alerts, and status updates.

## Flexible Setup

Choose full-population or segmented audits, and launch during open enrollment, onboarding, or any time during the year.

## Built-In Automation

Automated email alerts, removal rules, and documentation tracking reduce manual effort and streamline the audit lifecycle.

## Expert Support

Our U.S.-based team builds and manages the entire process with you—including setup, employee communication, and post-audit reporting.

## Cloud-Powered Audits Built for Today's Benefits Teams:

- Unified database for all applications and transactions
- Standard and customizable audit options
- One-time audits for full or segmented dependent populations
- Integrated audits for new hire, open enrollment, or mid-year events
- Amnesty and appeal configuration options
- Working spouse, student, and aging-off verifications
- Pending dependent tracking when added to the system or coverage
- Automated dependent removal rules tied to enrollment processes
- Automated email alerts for aging-off and verification deadlines
- Administrator reporting for audit outcomes and removals
- Self-service or BAS-managed documentation review
- Employee communications and email alerts built in
- Secure platform with SOC 1 & SOC 2, Type II Internal Controls
